ABOUT

EVENT BASE presents NZ's first modular, mobile, temporary TV studio. Utilising SPACECUBE modular building system in conjunction with custom glass panels, the SPACECUBE TV studio has been specifically designed with broadcasting in mind.

The pop-up studio is designed to be scalable and customisable to suit different production requirements.

It is also relocatable and quick to install (within a matter of hours) at any location, ensuring the studio can be positioned close to the live action and perfectly frame the desired background.

FIELDAY'S TV STUDIO

Client

New Zealand National Fieldays

Location

Mystery Creek, Waikato

Duration

Short-term hire - 4 day event

Size

74 sqm

Equipment & Services

5x cubes

Description

The Fieldays TV Studio was built on a raised platform using five cubes from our SPACECUBE range, complete with a tinted angled glass at the front facade for glare elimination, air-conditioned interior, integrated ceiling rigging and applied branding both internally and externally. Functionality and polished aesthetics were equally important as the studio was positioned centerstage on the Village Green, hosting the Prime Minister, celebrity chefs, a number of world leading innovators and guest speakers over the four day event.

NETWORK 10 BROADCASTING STUDIO

Client

Network 10

Location

Melbourne, Australia

Duration

Short-term hire - 5 day event

Size

59.2 sqm

Equipment & Services

4x cubes

Description

SPACECUBE provided this operational broadcasting studio for Network 10 at the 2020 Formula 1 Australian Grand Prix. Although the event was unfortunately cut short, the Network 10 crew were still able to utilise the suite for live TV. Built using four cubes and a customised angled glass section required for broadcasting, the advantage of utilising a modular building system ensures every suite can be designed and adapted to specific requirements and rolled out across multiple years.

NETWORK 10 BROADCASTING STUDIO

Client

Network 10

Location

Melbourne, Australia

Duration

Short-term hire - 7 day event

Size

234.8 sqm internally + 50 sqm roof terrace

Equipment & Services

10 cubes, 3 roof terraces, 2 m stair module, 2 single storey clear mezzanines

Description

SPACECUBE provided Network 10's Broadcasting Hub for the Melbourne Cup in 2020. Inside the studio was a fully functional broadcasting studio with insulated ceiling panels for sound absorption, angled glass for TV recording, 4 studio sets, tech BOH, a green room, makeup room and producers office. Up top was a spectacular broadcast terrace with sweeping views across the course from the CBD to the Grandstand and finish line. The roof of the structure was also branded for helicopter camera shots.
